Subject: RE: Seeking Hard Copy of Documents

Good Morning Again Jayne

In addition to the book on hold for you in the library.

Attached is a copy of a Van Den Berg et al article with the same pagination you provided to us. It is from the

Human and Ecological Risk Assessment: An International Journal
Notice: The attached material may be protected by US Copyright Law (Title 17 US Code)

When I searched under the author string this citation came up. So thought you might be of interest to you.

I don't know how it differs from your citation title which came up as:
Fate of Pesticides in the Atmosphere: Implications for Environmental Risk Assessment : Proceedings of a workshop organized by the Health Council of the Netherlands, held in Driebergen, the Netherlands, April 22-24, 1998

In this proceedings it seems Van Den Berg is chapter 9:
9. Emission of pesticides into the air; F. van den Berg, et al.

So I put in an Interlibrary loan request for the proceedings and we shall see what shows up in the meantime you have some type of information from Van Den Berg et al.

I will let you know when the I get any more information.

Thanks for your request.
